*Reasons for Allowance*

1. Claims 1-20, 22-44, and 46-50 are allowed. The claims will be renumbered as 1-48.
2. The following is an examiner's statement of reasons for allowance: the closest prior art of Golin (or any of the prior art of record) does not disclose or fairly suggest, summarizing a stream of ordered information by decomposing the similarity matrix into a plurality of component matrices using non-negative matrix factorization; and decomposing the similarity matrix based on a probabilistic matrix factorization into the plurality of component matrices comprises decomposing a similarity matrix S into a plurality of component matrices  $A_k$  such that:

$$A_k(i,j) = W(i,k)H(k,j), \text{ and}$$

$$S \cong WH = \sum_{k=1}^k A_k,$$

where:

$W(i,k)$  is an  $N \times K$  matrix;

$H(k,j)$  is a  $K \times N$  matrix;

$N$  is a number of separable portions of the stream of ordered information;

$K$  is a number of basis vectors; and  $k$  is an integer. It is for these reasons and in combination with all of the other elements of the claims that claims 1-20, 22-44, and 46-50 are allowable over Golin (or any of the prior art of record).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
